### **Quality resources in Laboratory Animal Science: where do I find them?**

Increased focus on **the 3Rs** (*Replacement, Reduction & Refinement*) in Laboratory Animal Science and regulatory demands mean that scientists, committee members and animal house staff need easy access to relevant resources.

Norecopa has built a brand-new website and intelligent search engine which provide a global overview of selected quality resources. The site consists of three major databases and approx. 500 webpages.

✓ *The search engine returns hits from all these resources simultaneously. A large range of filters can be applied to narrow the list of hits. All searches generate unique web addresses (URLs), making it easy to document the searches which have been performed.*

### **3R Guide database and webpages**

**Databases, Guidelines, Regulations, Information Centres, Journals, E-mail lists**

**Audiovisual products**

**NORINA**

**norecopa.no**

**Textbooks**

**TextBase**
